APPLICATION

If possible, wash hands with a suitable soap and clean water prior to applying hand sanitiser gel. Dispense 4/5ml of liquid onto palm of hands and then massage over front and back of both hands, taking care to work well into webs and cuticle area. Ensure both hands are fully treated. Shake hands in air until dry.

DO NOT USE A TOWEL. REPEAT THE PROCESS ON A REGULAR BASIS.

WARNINGS

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources, no smoking. If in eyes, rinse continually with water for several minutes, remove contact lenses if present and easy to do so, continue rinsing, if eye irritation persists seek medical advice/attention. If swallowed seek medical help straightaway.

Formulated in response to the focus on hygiene problems in areas where infection through cross contamination is a problem. Used primarily for the sanitising of hands prior to contact with patients, surfaces, instruments, food, etc. A complex blend of alcohol, skin emollients and thickeners designed to sanitise without the need for drying on a towel

APPLICATION

Dispense 5ml of gel directly onto hands, massage over front and back of both hands, working well into webs & cuticle area. Ensure both hands are fully treated until dry.

DO NOT USE A TOWEL.

Keep out of eyes, ears and mouth. In case of contact with eyes, rinse thoroughly with water and remove contact lenses if present and easy to do so. If eye irritation persists or if swallowed, get medical help straight away.
Use within 12 months of opening
